SUMMARY

Jackie is an accomplished financial professional with experience in a variety of industries. She thrives at solving financial and operational challenges with thoughtful innovation and an eye for detail. Her financial analysis and accounting experience enables her to see root of the problem and implement transformational results. Jackie is a team player dedicated to the success of to her clients.

AREAS OF EXPERTISE

Financial Control & Analysis

Improving business performance is my passion. Finding the right metrics for the business is critical in helping businesses grow. From creating internal financial reporting packages to presenting to a BOD, having clear and understandable information is key.

Process Improvement

Seeing the entire process and identifying ways to simplify and reduce duplicate efforts is at the core of who I am. Implementing efficient processes not only improves the bottom line for the business but also enhances the employee experience.

Mergers & Acquisitions

I have been involved in due diligence reviews and the successful rollout of new systems. Working with cross-functional departments, I have managed post-acquisition integration successfully combining companies into one operating business.
