<https://www.linkedin.com/in/rob-dewolfe>

For over 20 years Rob has worked with companies both large and small, helping with their finance and operational needs. His career began in accounting and transitioned into senior management roles in financial planning, demand/inventory planning, category management, and marketing analysis. Throughout his career, Rob has been working at the intersection of business and technology. This is where he helps organizations build efficient systems and processes to meet customer needs and support growth, profitability, and sustainability.
